

Humanitarian campaign for the children of Lebanon

As usual the one's who suffer most as a result of a war are the children, old aged and ill people.

ESS Medical Performance – in cooperation with the International Women's Cultural Forum of Dubai – started the first-aid campaign today.

Due to the fact that children cannot help themselves in such a cruel situation, it is our responsibility to support them. The children have no time to wait – they have no food or water or clothing any more. Many lost their homes and particularly their families.

Today the 1st step was done. Families, whose children are members of the Summer Vacation Project of Wonderland, led by Mrs. Iman Ismail Abdullah, President of the International Women's Cultural Forum, participated in the first collection campaign.

It is a important to do the first step – and we did it today!
The first cartons were filled up with blankets, pampers, can food etc.

Mrs. Madiha Maareg, Writer and Reporter from Dubai TV, joined this first step of campaign.

Last but not least the children of the Summer Vacation Project showed their engagement to help other children who suffer from the result of war.

The U.A.E. RED CRESCENT – CARE OF LIFE is supporting the campaign as well – to secure, that all freights will arrive with those who are in need!
