ESS Medical Performance

Ms Monique Louw
Head of Female Close Protection Team
Concert & Event Security
ASK International Security Services

Close Protection work includes protecting the client from threats of physical violence, checking out premises before the client arrives, accompanying the client on business and social visits, and driving the client to and from venues. Threats to clients could come from a range of sources incl. terrorist organizations, political opponents, stalkers or over enthusiastic fans.

Because bodyguards need to work discreetly whilst offering full cover, female bodyguards blend in and provide better discreet protection. At times, (female clients) feel uncomfortable with a man, but with another woman they feel at ease. Children also warm up easier towards women.

The main objective is to create and maintain a sterile area within which the client can perform their professional activities more efficiently & with total piece of mind – free of threat, embarrassment or harassment.

All ASK International employs are highly trained and experienced security consultants, both Arab and European, with diverse specialist skills. All management personnel are drawn from UAE, UK and European military, with either a background in the police or Special Forces.

All staff are vetted, approved and undergo further training according to the strictest standards when joining the company.

ASK International offers executive protection to clients that travel both abroad & within the Middle East as well as cooperating with ESS, special and personal drafted V.I.P.-Services are available on request. All executive protection officers, both male and female, have considerable experience in executive protection and work to the highest professional and ethical standards.

The discreet Security Services are provided to those clients, ranging from Sheikhs and Sheikhas, Royalty, foreign dignitaries, Heads of State, celebrities, airline crews and international businessmen, expect and require in today's world.
